

NIHAD KHAN

Intern Data Scientist

CAREER OBJECTIVE

Aspiring Data Scientist and Analyst seeking opportunities to apply technical expertise in data-driven problem solving, contribute to innovative projects, and grow into a high-impact professional in the field of AI and Data Science.

PROJECTS & ACADEMIC WORK

- Architected and developed an AI-driven web platform to systematically compare academic curricula of top institutions with Tier-2 and Tier-3 colleges to identify gaps in skill development.
- Data Analysis Projects: Conducted exploratory data analysis and visualization using Python and Power BI.
- Database Management: Designed and implemented SQL/MongoDB schemas for academic projects.
- AI/ML Applications: Experimented with generative AI models for text and data synthesis.
- Big Data Handling: Applied Hadoop for distributed data processing in coursework.
- Web Development: Built responsive web pages using HTML and CSS.

SKILLS

- Programming Languages:** Python, C++, Java, SQL
- Big Data Tools:** Hadoop Databases: MongoDB, SQL
- Data Visualization:** Power BI
- Generative AI:** Applied knowledge in AI-driven solutions
- Data Science & Analysis:** Statistical methods, predictive modeling, and data-driven decision-making

EDUCATION

AMITY UNIVERSITY, GWALIOR

Bachelor of Technology in
Information Technology
2024-2028

ORACLE PUBLIC SCHOOL, GWALIOR

Class XII (Math)
2021-2023

LANGUAGES

- Hindi
- English
